# UltraColour

## The Ultimate Heat Transfer.

The latest innovation in eco-friendly heat transfers, a combination of screenprint and digital technologies, manufactured right here in Australia.

Sometimes the decoration is either not possible or not cost effective by embroidery, screen printing or standard Vinyl transfer technology due to various reasons. This is where Ultra Colour becomes the only option.

**No weeding**  
Means no manual wages!  
So lower cost of transfers to you.

**Ultra Fine detail**  
No more contours!  
Print designs exactly as they're supplied by your customer.

**Full colour w/ Gradient**  
The best in digital ink technology, UC transfers are epically bright and rich in colour.

**Better Durability**  
Washable to 60'C and tested beyond 50+ washes, colour fastness is brilliant.

**Look and feel**  
The thinnest of transfers. Moves with the wearer, feels like part of the garment.

**Earth conscious transfers**  
Environmentally conscious inks and liner, UC transfers are 100% recyclable.

**Low set up fees**  
The lowest of screen print setup fees, and batching artwork makes it even cheaper!

**Cost Effective**  
With screen print efficiency, large size or high volume prints are even more cost effective.

 **UltraColour**  
**Already trusted**
